More information on standard and optional equipment is available on pages 122–125 in this brochure.

The standard and optional equipment available in your country may differ from that described in this brochure. For more information, please contact your local authorized MINI dealer.

CLASSIC MINI MEETS THE MINI OF TODAY.
THE RESULT: MINI UNITED.

Misano, Amsterdam, Silverstone and Le Castellet – four towns in four countries, all with one thing in common: for a few days, they've all been the most attractive town in the world – at least for MINI fans, owners, and connoisseurs. The MINI United open air festival is where the MINI community comes together to enjoy a spectacular mix of music, motor sports and lifestyle activities.

The real attractions at this event are, of course, the MINI models. Connoisseurs' favourites like the 1959 Classic Mini get the full red carpet treatment. Hot on their heels come ultra-stylish models, race cars and a few surprises to boot – in short, MINI United has all it takes to quicken the pulse of MINI fans of all ages. Because some things, after all, never go out of fashion. Like the low centre of gravity, short wheelbase and legendary go-kart feeling all MINI models are famous for – or those eye-catching lines and that distinctive profile. And not forgetting those all-important Chrome elements that make an exceptional car a MINI, just as they always have done.

MINI.

THERE ARE ONLY 24 HOURS IN A DAY. USE THEM WISELY.

There are plenty of good reasons for finishing work promptly – taking a quick spin around town, for one. If you're in a MINI, you won't just be treating yourself to an exhilarating driving experience – you'll be brightening up the streets too.

NICE WEATHER – IF YOU'RE A MINI DRIVER.

Let's be true Brits for a second and talk about the weather. Wet and windy? Not a problem: just think back to when you were a little kid, splashing in puddles. These days, of course, you can do the same thing in your MINI – and know what? It's still just as much fun. After all, your MINI packs up to 135 kW (184 hp) more punch than the soapbox racers of yesteryear. And it corners just as confidently in puddles as it does on dry land.

EVERY ROAD SHOULD HAVE A GRANDSTAND.

There are few sounds more stirring than a MINI John Cooper Works going for glory – or the cheer that goes up from the grandstands when it romps home first yet again. In real life, sadly, grandstands are few and far between. However, the sound of the engine is just as impressive. As is the acceleration, and the matchless thrill of cornering in your MINI John Cooper Works. In fact, the first time you take it out for a spin, you'll find every street corner turns into an impromptu grandstand.

Interested? To find out more about the MINI John Cooper Works, see the latest MINI John Cooper Works catalogue.

MINI CONVERTIBLE.

ADRENALINE RUSHES AS STANDARD.

Down comes the soft top, up goes your adrenaline level – the MINI Convertible experience is truly something special. Maybe it's the low centre of gravity and that unique go-kart feeling? Perhaps it's the wind in your hair, blowing away all your day-to-day worries? Or could it be the breathtaking design? One thing's for sure: once you're behind the wheel, such questions fade into insignificance.

ENJOYING THE MINI CONVERTIBLE: THE SKY'S THE LIMIT.

You can't measure pleasure, so they say. The MINI Convertible proves otherwise. Its Always Open Timer clocks up every hour driven with the soft top open, while you can tot up the hours spent with a smile on your face. And make no mistake, there'll be plenty of them – even if you leave the top closed every now and then.

JOHN COOPER WORKS

FANCY A WEEKEND BREAK?

The MINI John Cooper Works Convertible: is just the ticket for impromptu jaunts. In no time at all, you'll be gearing up for a holiday and enjoying the wind as it streams through your hair. And once that craving for adventure is thoroughly sated... don't forget to send a couple of postcards home.

Interested? To find out more about the MINI John Cooper Works, see the latest MINI John Cooper Works catalogue.

MINI CLUBMAN.

Today's modern metropolis is a cultural melting pot, brimming over with new movements and fresh inspiration. And right in the thick of it is the MINI Clubman. Your perfect guide to urban life, it gives you all the scope you need to express your individuality. In short, it is the perfect car-about-town.

A CITY LIKE NO OTHER CALLS FOR A CAR LIKE NO OTHER.

GOING UNDERGROUND, WITH THE MINI CLUBMAN.

The big city is the MINI Clubman's natural environment. Its underground movements are where the hottest trends come from. And that distinctive urban attitude is something the MINI Clubman – a car that's truly tuned in to today – has in spades too. The fact that you can also use it for your everyday shopping only makes it even cooler.

JOHN COOPER WORKS

READY WHEN YOU ARE.

Hold on tight: when the MINI John Cooper Works Clubman gets into its stride, the raw power it's packing is not for the faint-hearted. It also provides plenty of room for passengers in the back, no matter where you're off to – or how fast. Go on, give it a spin – you know you want to. Don't forget, fortune favours the brave.

YOUR MINI, MINI CONVERTIBLE AND MINI CLUBMAN IN DETAIL.

A GOOD FEELING HAS NEVER FELT BETTER.

Choosing your perfect MINI is no easy task. But it couldn't be more enjoyable.
Read on for an overview of all the various options available.

MINI.COM/CONFIGURATOR

Please check online for the full range of optional extras.

MINI.

Whether you choose the MINI One/D, MINI Cooper/D or MINI Cooper S/SD, with the MINI, stylish looks are guaranteed. All MINI models share the same distinctive LED rear lights. The MINI One/D includes characteristic design details such as Black fins in the radiator grille. On the MINI Cooper/D and MINI Cooper S/SD, the roof and exterior mirror caps come in a choice of Black or White in addition to the standard body-colour finish. The MINI Cooper S/SD features a hexagon-mesh radiator grille and decorative air intakes in the bonnet and radiator grille.

MINI ONE.
MINI ONE D.

The MINI One and MINI One D come with a roof in body colour, plus exterior mirror caps in Matt Black.

MINI COOPER.
MINI COOPER D.

The Cooper models feature Chrome plating on the radiator grille slats, tailpipe and tailgate handle, and offer the option of a contrast roof.

MINI COOPER S.
MINI COOPER SD.

The exceptional performance of the MINI Cooper S/SD is underlined by its rear spoiler and apron, and by its Chrome-plated double-pipe exhaust system in a special Cooper S design. The fuel cap and side scuttles are made of chrome. The side direction indicator lights are white, and there are also two separate rear fog lights.

MINI CONVERTIBLE.

For fresh air lovers, the MINI Convertible comes with a soft top in Carbon Black as standard. In the MINI Cooper/D Convertible, this soft top is also available in Denim Blue with Silver effect. In the MINI Convertible Highgate, the soft top comes in an exclusive Silvertouched Brown.

MINI ONE CONVERTIBLE.

Attention-grabbing: the MINI One Convertible, with a Black soft top and Matt Black exterior mirror caps. Its Black tailgate handle and central rear fog light make it instantly recognizable.

MINI COOPER CONVERTIBLE. MINI COOPER D CONVERTIBLE.

Glittering prospects: the MINI Cooper/D Convertible offers Chrome plating on the radiator slats, tailpipe and tailgate handle. All MINI Convertible models also feature stylish LED rear lights.

MINI COOPER S CONVERTIBLE. MINI COOPER SD CONVERTIBLE.

Extra-sporty: the MINI Cooper S/SD Convertible with Chrome-plated radiator, side scuttles, double-pipe exhaust system and roll-over bar. Not forgetting the eye-catching air intakes in the bonnet and radiator grille, and the White side direction indicator lights.

MINI CLUBMAN.

Available as the MINI One/D Clubman, MINI Cooper/D Clubman and MINI Cooper S/SD Clubman, all of which feature LED rear lights and the large Clubdoor. The C-pillars come in a choice of Black or Silver, with a body-colour option also available for the lower C-pillar bar in conjunction with selected paint colours.

MINI ONE CLUBMAN. MINI ONE D CLUBMAN.

On the MINI One/D Clubman, the roof and rear spoiler come in body colour and the exterior mirror caps in Matt Black, while the fins in the radiator grille are in Black.

MINI COOPER CLUBMAN. MINI COOPER D CLUBMAN.

The MINI Cooper/D Clubman features a Chrome-plated tailpipe and Chrome-plated radiator grille slats. On the MINI Cooper/D Clubman and MINI Cooper S/SD Clubman, the roof and exterior mirror caps come as standard in either Black or Silver, matching the C-pillars.

MINI COOPER S CLUBMAN. MINI COOPER SD CLUBMAN.

The power of the MINI Cooper S/SD Clubman models is readily apparent in their two wide-set Chrome-plated tailpipes and eye-catching air intakes in the bonnet and lower radiator grille. That's not to mention the Chrome-plated side scuttles, the White side direction indicator lights, and the hexagon-mesh radiator grille.

COLOURS.

MINI AND MINI CLUBMAN COLOUR COMBINATIONS.

A wide range of exclusive metallic and non-metallic colours are available – it's just a matter of what best suits you and your MINI. Striking elements that contrast with the body colour, including the roof and exterior mirror caps, can be combined in different ways to put a personal stamp on your car.

Seamlessly stylish: roof in body colour

A true highlight: roof in White with matching exterior mirror caps and bonnet stripes

A pleasing contrast: roof in Black with matching exterior mirror caps and bonnet stripes

Mark of distinction: the MINI Clubman with roof, exterior mirror caps and bonnet stripes in Silver

MINI ROOF COLOURS.

The roof of the MINI One/D and MINI One/D Clubman always comes in body colour, while the exterior mirror caps are Matt Black as standard. The MINI Cooper/D and MINI Cooper S/SD models come with roof and exterior mirror caps in body colour as standard – although they are also available with a Black or White contrast roof with matching exterior mirror caps. The MINI Cooper/D Clubman and MINI Cooper S/SD Clubman offer a choice of Black or Silver for the roof, exterior mirror caps and bonnet stripes.

MINI.COM/CONFIGURATOR The ideal way of testing the various colour combinations for your MINI.

ROOF COLOURS FOR MINI.

- Contrast roof in Aspen White (for MINI models)
- Contrast roof in Jet Black
- Contrast roof in Pure Silver (for MINI Clubman models)
- Roof in body colour (example shown is Spice Orange metallic)
- Roof in British Racing Green metallic[6]
- Roof in Hot Chocolate metallic[7]

[1] John Cooper Works package available in conjunction with this exterior colour.
[2] Expected to be available from the fourth quarter of 2012.
[3] Available for the MINI Bayswater design model.
[4] Not available after October 2012.
[5] Available for the MINI Baker Street design model.
[6] Available for the MINI Green Park design model.
[7] Available for the MINI Hyde Park design model.
[8] Not available in conjunction with a contrast roof in Pure Silver after October 2012.

MINI CONVERTIBLE COLOUR COMBINATIONS.

There's a wide range of metallic and non-metallic colours available – so you can tailor your MINI Convertible exactly as you please. Striking elements that contrast with the body colour, including the roof, exterior mirror caps and wheel rims, can be combined in different ways to put a personal stamp on your car.

MINI CONVERTIBLE SOFT TOP COLOURS.

The soft top of the MINI Convertible opens and closes automatically in just 15 seconds, and incorporates a continuously variable sunroof function. There is a choice of three soft top colours – Carbon Black, Denim Blue with Silver effect or Silvertouched Brown. Whichever option you go for, the inside of the soft top is always Black.

Carbon Black

SA3YC Silvertouched Brown[2]

- Soft top in Carbon Black
- Soft top in Denim Blue
- Soft top in Silvertouched Brown[2]

[1] John Cooper Works package available with this exterior colour.
[2] Available for the MINI Convertible Highgate design model.
[3] Expected to be available from end of fourth quarter of 2012.

MINI CLUBMAN COLOUR COMBINATIONS.

The MINI Clubman offers a wide range different colour combinations for the roof, exterior mirror caps and C-pillars.

Black/Black

Black/Black

Ice Blue/Black

Ice Blue/Ice Blue

Silver/Silver

Reef Blue/Silver

The roof of the MINI Clubman comes in body colour as standard. The C-pillars are available in Black or Silver. On the MINI Cooper/D Clubman, the contrast roof is available in Silver or Black as an option to match the colours of the exterior mirror caps and the C-pillars. When the exterior colour is either Pepper White non-metallic, Ice Blue non-metallic, Midnight Black metallic, White Silver metallic, British Racing Green metallic or Eclipse Grey metallic, the lower C-pillar bar is also available in body colour.

THE FINISHING TOUCHES.

Bonnet stripes in **White** are available as an option on MINI and MINI Convertible models. They are separated from the body colour by a thin Black border.

Exterior mirror caps in **Matt Black** come as standard on all MINI One/D models.

Bonnet stripes in **Black** are available on all MINI models. They feature a border in White.

The **exterior mirror caps** are available in **body colour** when this colour is also specified for the roof. On the MINI and MINI Clubman, the mirror caps are the same colour as the contrast roof. With the MINI Convertible, you also have the option of choosing Black or White.

Exclusive to MINI Clubman models, the **bonnet stripes** in **Silver** feature a thin Black border.

Exterior mirror caps in **Chrome** are available as an option in conjunction with any model or roof colour.

WHEEL RIMS.

YOU CAN'T REINVENT THE WHEEL. RIMS THOUGH, ARE ANOTHER MATTER.

Wheel rims are a vital part of your MINI – and there's a great all-round selection to choose from. Take a look at these light-alloy rims at your leisure, and you'll soon find the one that looks just right for your MINI.

For more information about standard and optional equipment, please see pages 122–125.

In addition to the factory-fitted wheel sets, certain wheel designs are also available as winter complete wheels.

MINI.COM / CONFIGURATOR

Use the Configurator to see the rim of your choice on your MINI.

EXTERIOR.

THRILLS AT FIRST SIGHT. AND AT SECOND, THIRD, FOURTH...

First appearances count for a lot. Happily, MINI models remain every bit as impressive at second and third glance. One distinctive feature of any MINI is its Chrome-plated details. It's a tradition that started with the Classic Mini – and today's models follow proudly in its footsteps with arresting design elements.

MINI.

A glittering exterior: the Chrome Line is a subtle way of making a big impact at the front end of your MINI. MINI One/D: includes Chrome-plated radiator grille slats, Chrome edging for the lower front grille, and Chrome surrounds for the fog lights. The Chrome Line helps the rear of your MINI to stand out too: MINI One/D: Chrome edging for the central rear fog light, Chrome-plated tailgate handle and Chrome-plated exhaust tailpipe (as standard on MINI One D models).

The large opening of the **glass sliding/vent roof** lets in plenty of fresh air. Electronic controls operate the front/rear vent function, and there is also a convenient remote-control opening function.

MINI Cooper/D: Chrome edging for the lower front radiator grille, Chrome edging around the front fog lights.

MINI Cooper S/SD: Chrome edging for the brake-cooling air ducts in the lower front bumper.

MINI Cooper/D: Chrome edging for the central rear fog light.

MINI Cooper S/SD: Chrome edging for the two rear fog lights and a Chrome-plated tailgate handle.

The **continuously variable built-in sunroof** allows a gap of up to 40 cm to be opened in the soft top. It can be operated even while the car is on the move, at speeds of up to 70 mph.

MINI CONVERTIBLE.

The Chrome Line for the MINI Convertible is almost as extensive as for the MINI. The key difference, of course, is the Chrome-plated roll-over bar with inlay in Piano Black – a feature that adds a distinctive visual highlight as well as protecting passengers.

MINI CLUBMAN.

Visual highlights: the Chrome Line for the MINI Clubman is broadly similar to the Chrome Line for the MINI and the MINI Convertible – except of course for the Chrome Line design elements specially created to emphasize the MINI Clubman's distinctive rear end.

The **roof rails** allow drivers to mount a range of integrated multifunctional carrier systems on the roof. They blend harmoniously into the lines of the car.

MINI Cooper/D Convertible: The lower front radiator grille has Chrome edging, as do the fog lights.

MINI Cooper S/SD Convertible: The brake-cooling air ducts in the lower front bumper feature Chrome edging.

MINI Cooper/D Clubman: The lower front radiator grille has Chrome edging and the fog lights have Chrome surrounds.

The **wide sliding glass sunroof** ensures a plentiful air supply from above in the MINI Clubman. It can also be electrically adjusted from the front or the rear, and remote controlled for maximum convenience.

MINI Cooper/D Convertible: The central rear fog light sports Chrome edging – and the roll-over bar with inlay in Piano Black is Chrome-plated too.

MINI Cooper S/SD Convertible: The two rear fog lights feature Chrome edging and the tailgate handle is Chrome-plated.

For the MINI Cooper S/SD Clubman: Chrome edging for the grille in the rear bumper.

MINI.COM/CONFIGURATOR

Configure your MINI with the Chrome Line Exterior.

EXTERIOR.

1. Exhaust tailpipe

2. Double exhaust tailpipes

3. MINI Cooper S/SD Clubman exhaust tailpipes

1. The striking **exhaust tailpipe** on MINI One D, MINI Cooper and MINI Cooper D models is Chrome-plated with a rounded edge.
2. The Chrome-plated **double exhaust tailpipes** on MINI Cooper S/SD and MINI Cooper S/SD Convertible models are located in the middle of the rear apron.
3. The two Chrome-plated **exhaust tailpipes** on the MINI Cooper S/SD Clubman are located near the outside edges of the rear apron, adding emphasis to the powerful yet elegant look of the car's rear end.

The **trailer tow hitch** with removable ball head is available as an option on the MINI Cooper/D Clubman and the MINI Cooper SD Clubman models, and is suitable for towing loads of up to 750 kg.
Available as an option on all MINI Convertible models, the **rear-mounted rack preparation** for multifunctional carriers, such as bicycle carriers from the Original MINI Accessories range, is located in the rear apron, and concealed behind a cover in body colour.

SPOILED FOR CHOICE.

1. Rear spoiler, MINI One/D and MINI Cooper/D models

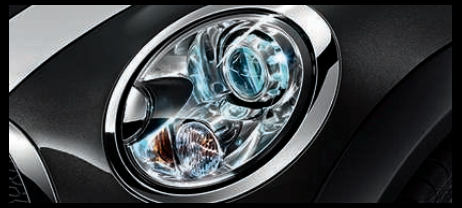
2. Rear spoiler, MINI Cooper S/SD models

3. Rear spoiler, all MINI Clubman models

1. – 3. There are different **rear spoiler** designs for different models, all of them perfectly matched both aerodynamically and aesthetically to the MINI in question. Painted in the same colour as the roof, they blend seamlessly into its lines.

Available as an option on all MINI and MINI Clubman models, **sun protection glazing** reduces the build-up of heat in the interior of the car caused by strong sunlight, making things more comfortable for the occupants. Where this option is specified, the glass is visibly darker from the B-pillars backwards (including the rear windscreen).

EXTERIOR.



1. Adaptive Headlights

2. LED rear lights

3. Black headlight reflectors

4. Fog lights

5. Bi-xenon headlights

6. LED rear lights with built-in rear fog light

7. Rear fog light and Park Distance Control (PDC)

8. Rear fog light

9. White direction indicator lights

10. Comfort access system

11. Comfort access system

1. The **Adaptive Headlights,** featuring automatic headlight beam-throw control, ensure optimum illumination whether driving in city or country, and allow drivers to see further ahead on the motorway. Sensors measure the steering angle, rate of turn and vehicle speed, and electric motors then adjust the position of the light beam accordingly to suit the speed and direction of the car (only available in conjunction with bi-xenon headlights, not available in conjunction with Black reflectors).
2. + 6. The new **rear lights** incorporate **LED technology.** The direction indicator light is positioned in the centre of the unit as a ring around the tail light, with the brake light split into two sections, one above and one below. The distinctive LED light ring makes the MINI easily identifiable from a distance, even at night.
3. The **Black headlight reflectors** are available in conjunction with bi-xenon headlights and White direction indicator lights.
4. The **fog lights** are built into the front apron, and offer improved safety when visibility is poor.
5. The optional **bi-xenon headlights** for low and full-beam settings, with headlight beam-throw control and headlight washer system, offer particularly powerful illumination.

7. – 8. On Cooper S/SD models, the **rear fog lights** and reversing light are built into the grille of the bumper. On One/D and Cooper/D models they are placed in the middle of the grille.
Park Distance Control (PDC) at the rear makes it easier to park and manoeuvre in tight spaces. An acoustic signal (and a visual display, if Radio MINI Visual Boost is also fitted) informs the driver of the distance between the car and any obstacle.

9. The **White direction indicator lights** option comprises transparent glass for the indicators in the front headlights, side scuttles and rear lights. White side direction indicator lights are standard for MINI Cooper S and SD models.
10. – 11. The **comfort access system** allows you to lock and unlock the car without even having to touch the remote control. You can also switch the ignition on and off keylessly, simply by pressing the Start/Stop button.

YOUR IDEAS. YOUR STYLE. MAXIMUM IMPACT.

If you appreciate great design and like to be special, then the MINI Yours customization programme is the perfect way to make your MINI even more individual. The exclusive colours, Highclass Grey metallic and Reef Blue metallic, are only part of the story. Unique light-alloy rims, matching exterior mirror caps, bonnet stripes, a wealth of further options and a complete exterior package will all give your MINI even more personality, and help you get even more fun out of it. For example, give your MINI an exclusive look with MINI Yours Soda side scuttles teamed with MINI Yours Soda bonnet stripes in Black.

Interior. Stylish, distinctive and unmistakably MINI, right down to the last detail: the instruments and controls are harmoniously designed and laid out for intuitive ease of use. The centre console with radio controls and its characteristic switch cluster is finished in a muted Black, with the Chrome elements in the steering wheel and around the instruments creating a sporty and sophisticated contrast. The three-spoke sports leather steering wheel is available with multifunction as an option, allowing you to operate cruise control, radio and telephone without removing your hands from the steering wheel.

The **two-spoke leather steering wheel** has a driver airbag built in. The wide Chrome ring is an eye-catching design detail.

The **three-spoke sports leather steering wheel** is available as an option on all MINI models. It sits comfortably in the hand, for even more agile handling. Available as standard on MINI Cooper S/SD models.

GOOD TASTE IS ALWAYS IN STYLE.

SEATS.

Whether you prefer standard, sports or Recaro sports seats, in cloth, cloth/leather or leather, there's one thing all MINI seats have in common: they combine total comfort with purest MINI pleasure. Buckle up!

2. 6-speed Automatic Transmission Steptronic

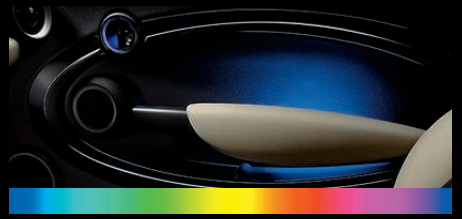
3. Sport button

1. – 2. The **6-speed Automatic Transmission Steptronic** makes gear changes easy and, in Steptronic mode, decidedly sporty. The 6-speed Automatic Transmission Steptronic features two optional shift paddles on the multifunction three-spoke sports leather steering wheel. These allow drivers to make manually initiated automatic gear changes quickly and safely without taking their hands off the wheel.

3. Pressing the **Sport button** further improves the car's responses to throttle and steering inputs, for an even more involving drive. On MINI Cooper S models, it also gives a sportier engine note, and on vehicles with automatic transmission, it makes gearshift times faster too.

MORE THAN JUST ON AND OFF: THE MINI LIGHTS PACKAGE.

In addition to the standard interior light in the headliner, the light package includes handle-area illumination in the door trim, reading lights in the front, illuminated vanity mirrors[1], front footwell lights and an additional new light in the storage compartment. Exquisite details: the Ambient Lighting for the door handles, door storage compartments, B-pillar trims and instrument panel backlight can cycle steplessly through all the colours of the spectrum. Available as an option on all MINI models, the centre armrest in the front folds up and down, and includes a storage compartment.



[1] Only available for MINI and MINI Clubman models.

SPECIAL FITTINGS.

1. Rear-view and exterior mirrors with automatic anti-dazzle function

2. Headliner in anthracite

3. Storage package

4. Wind deflector

5. Separately folding rear seat backrests

1. The **rear-view and exterior mirrors with automatic anti-dazzle function** dim the light from the headlights of following vehicles if this reaches a certain level of intensity.
With the rear-view mirror with compass function, an easily readable digital display is built into the mirror.
2. A **headliner in anthracite** is available for MINI and MINI Clubman models.

3. The **storage package** includes a storage compartment in the instrument panel on the passenger side, and a storage net in the front passenger footwell, plus a luggage compartment floor net, a side separating net and a 12-volt power socket in the luggage compartment. It also enables the angle of the rear seat backs to be adjusted, so they can be moved into the cargo position.[1]
4. The **wind deflector** lets you enjoy more comfortable open-top driving without irritating draughts around the neck and shoulders. When not in use, it folds down to a compact size for transportation in the luggage compartment.

The rear seat backrests in MINI Clubman models fold down separately. The **flat load-compartment floor** makes for easier loading and unloading. Items can be secured to the four lashing eyelets.

5. The **separately folding rear seat backrests** 50:50 split) can be put into the flat position from the luggage compartment by pulling a handle, allowing the car to carry bulky objects and three people at the same time. The luggage area can be expanded and capacity optimized by folding down both rear seat backrests.
On the MINI Clubman, a **three-seat rear seat bench** is available, with three headrests and space for two adults and one child (weighing up to 49 kg).

Available as standard, **ISOFIX** is an industry-standard system whereby a baby or child seat fitted with two telescopic bars can be safely and securely mounted on either of the rear seats.
All MINI models are equipped as standard with an **easy entry function.** When the seat is folded forwards, it automatically glides towards the glove compartment to give easier access to the rear seats.

[1] Included in the flat load-compartment floor storage package for MINI Clubman models.

TECHNOLOGY AND EQUIPMENT.

ALL YOU NEED TO KNOW.

The large **speedometer** is positioned in the middle of the instrument panel, and incorporates various warning lights and the fuel gauge.

If the MINI navigation system or Radio MINI Visual Boost is fitted, then the **speedometer** runs round the outside of the central round instrument.

Once the key is in the ignition, the **Start/Stop button** can be used to switch the engine on or off.

1. Revolution counter

2. On-board computer

3. Rain sensor

1. The **revolution counter** is mounted on the middle of the steering column. The upper display shows the current speed, while the lower display shows such information as the trip distance or the Shift Point Display, which tells you which gear is the most economical at any given moment.
2. The **on-board computer** tells you your range, current and average fuel consumption, and average speed at the touch of a button.
3. When the **rain sensor** is activated, it automatically switches on the windscreen wipers when necessary, and adjusts their speed to how hard it is raining. The built-in light sensor automatically switches on the driving lights when needed in dark or twilight conditions.

CLOCKING UP THE FUN.

The **Always Open Timer** keeps track of the time you spend with the top down. It starts running as soon as the soft top is fully open and the engine is on, counting every minute. The trip counter display goes up to seven hours, and the total time spent with the top down is logged by the on-board computer.

1. Air conditioning

2. Automatic air conditioning

3. Visibility package

4. Seat heating

1. The **air conditioning** system with microfilter means passengers can enjoy their ideal interior temperature, whatever the conditions outside. The amount and distribution of conditioned air can be individually adjusted.
2. Automatic air conditioning rapidly adjusts the interior temperature to the desired level, and then keeps it constant. An integrated active carbon filter protects passengers against unpleasant odours from outside.

3. The **visibility package** ensures drivers can always see clearly. It includes a heated windscreen, a rain sensor and automatic driving light control.
4. The **seat heating** option allows both the driver and front-seat passenger to choose between three seat temperature settings.

ENTERTAINMENT AND COMMUNICATIONS.

1 HEAD UNITS.

1. Radio MINI Boost CD

2. Radio MINI Visual Boost

1. The **Radio MINI Boost CD** shares all the features of the Radio MINI CD, but also has a two-column display, antenna diversity for optimum reception, controls for external audio players and the like, a Bluetooth mobile phone preparation and a DAB radio tuner.
2. The **Radio MINI Visual Boost** has all the features of the Radio MINI Boost CD, and then some: a high-resolution 6.5-inch display with comfortable intuitive control system and a distinctive MINI look and feel, a Bluetooth hands-free kit with USB audio interface, an on-board computer and an audio/video adapter for the Apple iPod/iPhone. For an additional fee, it can be upgraded with the MINI Connected option.[1]

2 MUSIC.

3 BLUETOOTH/USB.

4 NAVIGATION SYSTEM.

5 MINI CONNECTED.

[1] For information on the compatibility of devices for audio, video and telephone functions, visit: MINI.com/connectivity

LET MINI ENTERTAIN YOU.

Tailor information, communication and entertainment functions to your personal preferences in five easy steps. First you have to choose a head unit – with its large display, the Radio MINI Visual Boost in particular opens up a whole new world of interactive possibilities. You can then choose the services, music and Bluetooth/USB options that are right for you: from MINI Connected to the MINI navigation system. (The brochure shows a selection of these.) Whether you want technology that keeps you connected or navigation that keeps you on the straight and narrow (or even both), you're sure to find a solution that meets your requirements.
Fitted as standard, the **Radio MINI CD** includes an RDS tuner with scan function, permanent clock display and FM, MW and LW reception, and a built-in CD player with MP3 decoder, featuring intro scan function and fast forward/rewind. The system also features six speakers, and an AUX-IN connection for MP3 players.

ENTERTAINMENT AND COMMUNICATIONS.

2 MUSIC.

1. harman/kardon hi-fi loudspeaker system

2. harman/kardon hi-fi loudspeaker system

1. – 2. harman/kardon hi-fi loudspeaker system: a digital multichannel amplifier, and a total of ten high-performance speakers seamlessly integrated into the vehicle interior deliver a unique sound experience, thanks to a total output of up to 480 watts, with powerful bass and brilliant treble.
3. The optional **Bluetooth hands-free kit with USB audio interface** connects wirelessly to Bluetooth-enabled mobile phones. The USB audio interface supports the connection of a device such as an iPod, USB memory stick or MP3 player. Users can select tracks stored on the device by album, artist, genre etc. via the radio or central display.[1]

3 BLUETOOTH/USB.

3. Bluetooth hands-free kit with USB audio interface

4. Bluetooth mobile phone preparation with USB audio interface

4. The **Bluetooth mobile phone preparation with USB audio interface** option also includes a centre armrest and a three-spoke sports leather steering wheel with multifunction option and cruise control. With an optional snap-in adapter, available for a fee, a Bluetooth-enabled mobile can be plugged in to a slot in the armrest, which charges its battery, and connects it to the vehicle aerial for improved reception. In conjunction with the optional Radio MINI Visual Boost you can also use many of the functions on your smartphone, such as Bluetooth audio streaming and album cover artwork display, easily and safely on the radio display.[1,2]

[1] For information on the compatibility of devices for audio, video and telephone functions, visit: MINI.com/connectivity
[2] Subject to availability of device-specific snap-in adapters.

4 NAVIGATION SYSTEM.

The optional **MINI navigation system** turns the Radio MINI Visual Boost into a powerful navigation solution, with navigation instructions given via voice prompts and on-screen arrows and maps. It also includes day and night modes, a search function for points of interest, TMC reception via a double tuner, a GPS aerial and support for updates via the USB interface.[1]

The **main menu** is located on the central display of your MINI, and displays the full range of infotainment options. All you have to do is choose how you'd like to be entertained.

Another highlight is the **Driving Excitement** function, which includes a digital sport display and analyses how sporty and accurate your driving style is, further ratcheting up the fun.

International **web radio** with MINI Connected: select from **thousands** of stations. Wherever you happen to be, you're guaranteed to find something to please.

5 MINI CONNECTED.

Full speed ahead on the information super-highway: **MINI Connected** revolutionizes the world of in-car infotainment, seamlessly linking car and driver with the online world. An all-new USB interface integrates the sophisticated features of your iPhone (not supplied) seamlessly into the audio and infotainment system of your MINI. Information and content appear on the central display in typical MINI style and are controlled via either the MINI joystick or the multifunction steering wheel. "MINI Connected ready" apps like the MINI Connected iPhone app allow you to connect to Facebook and Twitter or get the latest news via RSS feeds. And best of all, from now on you'll be able to view and operate iPod functions in the familiar and intuitive Apple menu system in your MINI – all thanks to the revolutionary MINI Connected plug-in.[1,2]

[1] Additional optional equipment required.
[2] Availability and range of features are dependent on the other equipment fitted, and may vary from country to country. Range and graphic design of MINI Connected functions subject to change without notice. Broadband mobile Internet access required. Costs resulting from this (e.g. data roaming) will be payable as specified in the contract with your network provider. MINI Connected app available free of charge from the device manufacturer's app store (subject to national restrictions). Updates available free of charge, but version upgrades may be chargeable. If further MINI Connected-compatible apps become available, these will be identified/promoted accordingly. For more information about device compatibility and the functions contained in MINI Connected, visit MINI.com/connectivity

MINI DESIGN MODELS.

MADE FOR THE ASPHALT CATWALK: THE MINI DESIGN MODELS.

Welcome to London! Reflecting the flair and elegance of the British capital, these three MINI design models feature distinctive styling, impeccable quality, unusual paint colours and individualized bonnet stripes, all specially designed. This stylish flamboyance is then followed through on the inside. Particularly striking amongst the external features are the remarkable light-alloy rims and the unique design of the exterior mirror caps.

MINI CONVERTIBLE HIGHGATE.

MINI Convertible Highgate interior leather seats and Colour Line in Dark Truffle leather with Aluminium contrast stitching and Blue edging.

The MINI Convertible Highgate's leather-covered armrest with Aluminium double stitching

MINI BAKER STREET.

Baker Street side scuttles

Cross Check Rooftop Grey Light interior surface

MINI BAYSWATER.

Punch Rocklike Anthracite leather seat with contrast stitching in Brown and Blue

MINI Bayswater exterior mirror caps

MINI GREEN PARK.
MINI CLUBMAN HYDE PARK.

Two exclusive models with one key quality in common: a stylistic bravura that springs from a choice assortment of design elements. Particularly noteworthy in both cases are the contrast roofs with matching exterior mirror caps and the exclusively styled bonnet stripes and side stripes.

ALMOST TOO CLASSY TO PARK.

Classic, elegant and eye-catching, the interiors of the new MINI design models will make you feel like heading straight for the nearest green space. The Pepper White colour used for the exterior reappears on the high-quality interior surfaces, creating a very special ambience – just one of many reasons why the MINI design models are sure to leave a lasting impression.

JOHN COOPER WORKS EQUIPMENT.

MINI Cooper with John Cooper Works package

The John Cooper Works door sill finisher underscores the car's proud racing birthright.

A statement of intent: the 17" Cross Spoke CHALLENGE in Silver with runflat tyres.

MINI Cooper Convertible with John Cooper Works package

MINI Cooper S Clubman with John Cooper Works package

THE ALL-ROUND POWER PACKAGE.

The **John Cooper Works package** features a striking rear bumper, a front apron with built-in air ducts and side skirts with track-style air intakes.

With contrast stitching in Chill Red on both the gearshift and handbrake gaiters, the manual transmission is almost as good to look at as it is to use. And the interior's racing heritage is reinforced by the three-spoke sports leather steering wheel with accentuating contrast stitching in a racy, sporty Red and the John Cooper Works logo on the 6 o'clock spoke.

The optional Recaro sports seats with Dinamica leather combination upholstery in Carbon Black, improved lateral support, longer seat base, built-in headrests and embossed logo are the perfect addition.

There is also the option of high-quality leather upholstery for the instrument panel with a knee roll in Dinamica Anthracite – the perfect finishing touch to your MINI John Cooper Works.

STRENGTH HAS NEVER BEEN SO SEDUCTIVE.

JOHN COOPER WORKS

JOHN COOPER WORKS
TUNING.
ORIGINAL MINI
ACCESSORIES.

JOHN COOPER WORKS TUNING.

MINI Clubman, MINI Convertible and MINI with John Cooper Works Tuning

Tuning kit: sports silencer, tailpipes in Chrome

Sports steering wheel in Alcantara and additional instruments

Cross Spoke R113 light-alloy wheels with Red Stripe

John Cooper Works Tuning[1] delivers a true racetrack experience. Take the John Cooper Works Tuning Kit, which offers the ideal balance between breathtaking performance and safety. For example, the kit boosts the output of the TwinScroll turbocharger in the MINI Cooper S with manual transmission to an incredible 147 kW (200 hp)[3], thanks to a special air filter and reprogrammed engine management software. Even the light-alloy wheels offer the perfect blend of driving enjoyment and safety. All are weight-optimized and fitted with runflat tyres, and you can choose between Burnished Black, Matt Black or a Red Stripe. Whichever you opt for, you can be sure that the striking MINI design will make a real impact on the tarmac.

The next decision is which of the John Cooper Works Tuning components to select for the interior. The additional instruments (such as displays showing the cooling water temperature, relative torque and lateral acceleration) are the finishing touches that ensure you'll soon be securing pole position in your John Cooper Works-tuned MINI.

[1] For more information, visit MINI.com/accessories.
[2] The fuel consumption and emissions figures recorded with the John Cooper Works Tuning Kit are identical to the MINI Cooper S figures given on pages 116/117.
[3] Not available on MINI Convertible.

ORIGINAL MINI ACCESSORIES.

MINI, MINI Clubman and MINI Convertible with Original MINI Accessories

Side scuttles with Union Jack and Black Line side indicators

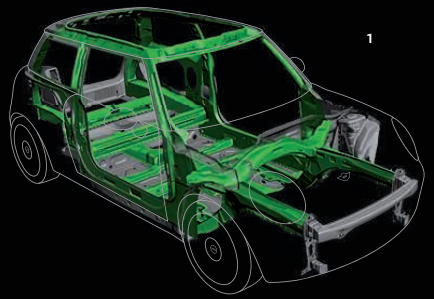
Holder for MINI Portable Navigation System

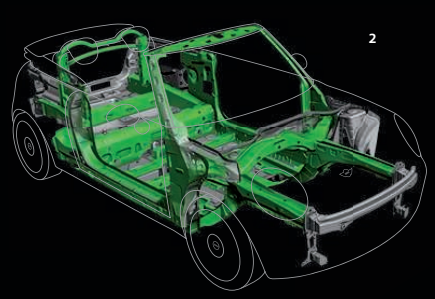
Touring cycle holder[2]

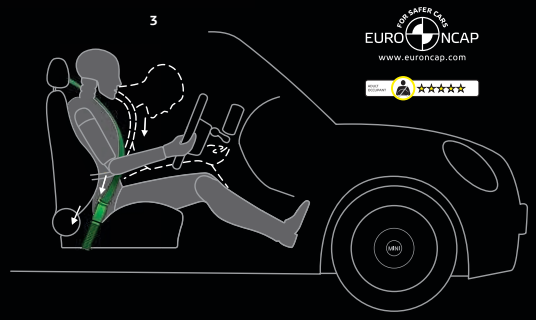
More MINI feeling, more individuality. With **Original MINI Accessories**[1] you can give your MINI a look that is all your own – outside, inside, on top, underneath, back and front. The array of choices starts with the exterior, for example stylish components such as fashionable light-alloy wheels, born of various development processes and design stages. The striking side scuttles are another eye-catcher and are available in a choice of stylish designs and vibrant colours. One of the key interior features is the holder for the MINI Portable Navigation System, because when you know where you're going, you can enjoy the ride. The rotatable holder does not obscure the driver's view and is designed so that there are no trailing wires. We wouldn't have it any other way when it comes to Original MINI Accessories – we just keep on adding. For example with the lockable touring cycle holder[2] for transporting a bicycle or mountain bike, or the the roof box[2] with central locking (approx. 320-litre capacity). One thing is for certain: with Original MINI Accessories always has smart solutions for pure driving fun.

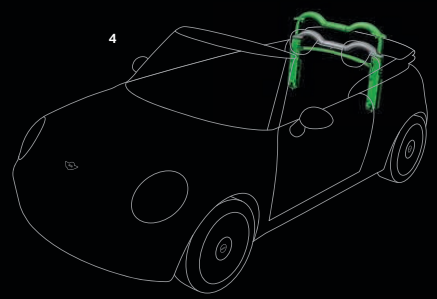
CONCEPT AND SAFETY.

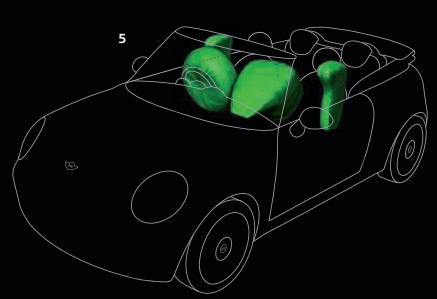
CONCEPT AND SAFETY.

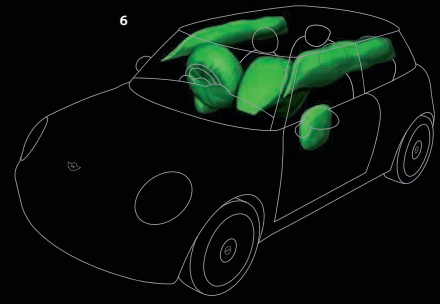












1.+2. BODY. The body of the MINI has been reinforced at strategic points, guaranteeing extreme torsional rigidity for an exceedingly robust passenger compartment. The aim is to deliver the perfect combination of comfort, acoustics and protection.

SUSPENSION. The combination of a single-joint spring-strut front axle and a multiple-control-arm rear axle with wide track and a low centre of gravity results in the unmistakable MINI feeling: stable, agile, with optimum cornering ability at all speeds, plus superb traction and outstanding safety.

3. RESTRAINT SYSTEM. A combination of three-point belts, belt tensioners and belt force limiters means driver and front-seat passenger enjoy the best possible protection in the event of a crash.

ISOFIX. To ensure the safety of younger passengers, one or two ISOFIX child seats can be mounted in the rear as standard.

EURO NCAP CRASH TEST. In the Euro NCAP crash test, the MINI scored five stars[1]. The level of protection for passengers and driver was rated as excellent in front, side and pole impacts, and the car also received outstanding scores for child safety.

[1] Does not apply to MINI Clubman or MINI Convertible.

4. ACTIVE ROLL-OVER BAR. Made of high-strength aluminium, the active roll-over bar ensures optimum protection for all occupants. Normally it is retracted behind the rear headrests, blending seamlessly into the beautiful lines of the MINI Convertible, but in an emergency, it deploys upwards in approximately 150 milliseconds.

5.+6. AIRBAGS. The MINI is fitted with six airbags as standard (four on the MINI Convertible): driver and front passenger airbags protect the head and upper body in the event of a head-on collision, while side and head airbags are primarily designed to reduce the risk of injuries to the head, chest and abdominal areas from side impacts. In the MINI Convertible, this function is performed by the head/thorax airbags built into the front seats.

DYNAMIC BRAKING LIGHT. Alerts following drivers to dangerous situations faster. Under normal braking the light comes on in the conventional way, but when the MINI performs an emergency braking manoeuvre, it starts to flash. In this way, it enables the traffic behind to see immediately how hard the MINI is braking. Automatic activation of the hazard warning lights also lessens the risk of an impact from behind.

OVERBOOST FUNCTION. Performance can be a safety feature in itself. The MINI Cooper S can get a temporary boost in its maximum torque from 240 to 260 newton-metres, thanks to a system that momentarily increases the turbo pressure and the quantity of fuel injected in its 1.6-litre twin-scroll turbocharged engine. And more power means overtaking distances are shorter, and therefore safer.

1

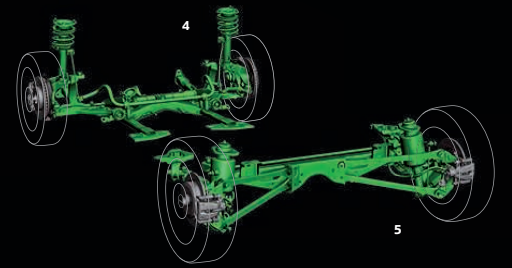
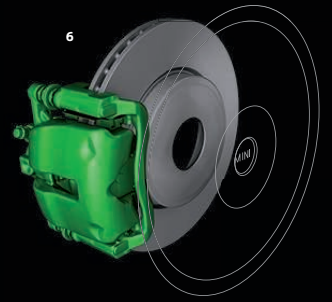
4



5

6



1. DSC AND DTC. Fitted as standard, **DYNAMIC STABILITY CONTROL (DSC)** counteracts incipient loss of grip by intervening in the engine management and applying braking force to individual wheels at front and rear as necessary. DSC also includes hill assist.

The optional **DYNAMIC TRACTION CONTROL (DTC)** with Electronic Differential Lock Control (EDLC) gives drivers the option to make more use of the car's natural handling by delaying interventions in engine management and braking until the last possible moment. Should the inner wheel lose too much traction, EDLC will apply braking to it, ensuring the car maintains forward momentum through corners and on surfaces with variable levels of grip. At the same time, it enables more torque to be applied to the outer wheel. Braking interventions on the rear axle also help the car to hold its line when cornering.

2. ADAPTIVE HEADLIGHTS. This system, featuring automatic headlight beam-throw control, ensures optimum illumination whether driving in city or country, and allows drivers to see further ahead on the motorway. Sensors measure the steering angle, rate of turn and vehicle speed, and electric motors then adjust the position of the light beam accordingly to suit the speed and direction of the car (only available in conjunction with bi-xenon headlights, not available in conjunction with Black reflectors).

3. RACK-AND-PINION STEERING. Electric power assist ensures outstanding steering responses, with the driver receiving precise and involving feedback. The steering is lighter at low speeds and stiffer at high speeds, for ease of control at all times. For maximum comfort, it is only 2.4 turns from full lock to full lock.

4. SINGLE-JOINT SPRING-STRUT FRONT AXLE. Two drive shafts of equal length in the front suspension minimize the extent to which the drive train interferes with the steering, and optimize the car's cornering, acceleration and braking.

5. MULTIPLE-CONTROL-ARM REAR AXLE. Unique in a car of this class, ensuring optimum contact between the wheels and the road for the best possible traction. Aluminium construction keeps weight to a minimum and increases the agility of your MINI.

6. BRAKING SYSTEM. Four disc brakes with Anti-lock Braking System (ABS) and Cornering Brake Control (CBC) as standard ensure optimum braking performance in any situation. Electronic Brakeforce Distribution (EBD) manages the distribution of braking force between the front and rear axles. Brake assist also supports this process, delivering maximum braking force and ensure the shortest possible stopping distances.

[1] All figures relate to vehicles with the standard 6-speed manual transmission. Figures in square brackets relate to vehicles with 6-speed Automatic Transmission Steptronic.

[2] All MINI models comply with the EU5 exhaust emissions standard. Fuel consumption is determined in accordance with the ECE driving cycle (as defined in Directive 80/1268/EEC), made up of approximately one third urban and two thirds extra-urban driving (based on the distance covered). CO_2 emissions are measured separately from fuel consumption. Figures relate to standard-specification vehicles, and may vary significantly where optional equipment (including wider tyres) is fitted.

[4] With overboost function.

[5] Fuel consumption for the MINI One MINIMALIST is 6.5 l/100 km (urban), 4.3 l/100 km (extra-urban) and 5.1 l/100 km (combined cycle), and CO_2 emissions are 119 g/km (combined cycle).

[5] The figure quoted includes a 90% tank filling, 68 kg for the driver and 7 kg for luggage. Unladen weight applies to vehicles with standard equipment. Optional equipment may increase this figure.

[6] For technical reasons, engine performance is reduced when it is tuned to avoid carbon deposits.

UNSTOPPABLE.

Interested in buying a MINI? Then you'll also be interested to know that every day, we put all our passion, effort and combined expertise into ensuring you can enjoy uninterrupted driving fun. "Can't" just isn't in our vocabulary. Because with MINI Service, anything is possible.

A MINI THINKS FOR ITSELF.

Because it's not just built for quality, but for ease of repair and maintenance too. With a MINI, fixed service intervals are a thing of the past, as the on-board Condition Based Service (CBS) system constantly monitors the status of the car to work out what servicing it needs and when – saving you both time and money.

A BREAKDOWN?

It's unlikely, we know. But working on the basis that anything can happen, MINI Mobile Service is never more than a phone call away, 24 hours a day, 365 days a year. Specially trained MINI technicians will leave no stone unturned to get your MINI moving again, either over the phone or by coming to you at the roadside. In addition, there is a range of other breakdown assistance services to help you complete your journey (details vary from country to country), and MINI also offers incidental costs insurance for accidents and theft.

THE A TO Z OF SERVICE.

We provide everything that you and your MINI could ever need. Our highly trained specialists are ready, willing and able to tackle any challenge you present them with, small or large, without delay. They can diagnose and repair any electronic, mechanical, structural or cosmetic issues – right down to the smallest chip in the paintwork, everything can be fixed quickly and accurately, ensuring your MINI never loses its sparkle. And as you would expect, we only ever use Original MINI Parts – because only they offer the quality, durability and exact fit needed to make sure that your MINI stays a MINI.

WE'VE GOT EVERYTHING COVERED.

MINI FINANCIAL SERVICES.

DON'T DREAM IT, DRIVE IT. MAKE IT HAPPEN, WITH MINI FINANCIAL SERVICES.

Admittedly, daydreaming about a MINI can be fun. Just not compared to actually driving one. And the right finance solution from MINI Financial Services can help you find the shortest route from dream to reality, in a way that is tailored to your lifestyle, your budget and the MINI model that you choose.

MINI Leasing, MINI Finance and MINI Select are three roads that all lead to the same destination – namely, making your dream of driving a MINI come true. All of them offer their own unique advantages, and speaking to your MINI dealer will help you decide which one is right for you.

Once you've chosen the car and the finance deal, you'll be asking yourself if there's any way you can make the MINI experience even more exciting. Answer: no, of course not. But what you can do is protect against surprises of the wrong sort, by choosing an insurance solution that was made for MINI drivers. Because as well as finance, MINI Financial Services also offers a range of insurance products that are tailored to your exact needs and preferences.

Your next move? The best thing to do is to make an appointment at your local MINI dealership. The sales advisors there know every MINI Financial Services product inside out, and it's their job to help you make your MINI dream come true.[1]

[1] For more information about MINI Financial Services, its leasing, finance and insurance products, and the companies through which these products are provided in your country, visit MINI.com or speak to your MINI dealer. Products and services may vary from country to country.

WARRANTY. RECYCLING.

WARRANTY.

Every MINI is supplied with a two-year unlimited mileage dealer warranty. (This excludes wear-and-tear parts, for example brake pads.) Every MINI also comes with a 12-year anti-corrosion warranty, which covers the vehicle against rusting of the body panels. This warranty is dependent on any previous damage to the vehicle body or under-body (e.g. stone impact damage, scratches, dents, accident damage or other damage caused by environmental factors) having been correctly repaired in accordance with current MINI guidelines. The painted surfaces of the car are covered by a three-year warranty. This excludes any damage to painted surfaces caused by improper treatment or unforeseen environmental factors. The statutory rights of the consumer are unaffected.

RECYCLING.

At every stage, from design to disassembly, recycling is central to the MINI philosophy. For example, all the materials used in its manufacture were selected because they can be used in the most sustainable and environmentally friendly way possible. That way, every MINI can be efficiently and ecologically recycled when its driving days are finally done.
We have been working on this approach since 1994 at the BMW Group Recycling and Disassembly Centre in Munich, the only facility of its kind. Your MINI dealer will be pleased to advise you on the disposal of your old vehicle. Alternatively, more information on this subject can also be found at www.MINI.com/recycling
